

# ULTRA-TUFF™:

## Superior Performance Beyond Traditional Materials

---

- ✓ **Durability and Longevity:** **ULTRA-TUFF™** offers enhanced durability compared to PK, Acetal, and other standard belting materials, significantly extending service life as documented by field studies
- ✓ **Comprehensive Solutions:** Safari Belting is the only manufacturer who offers belts, rods and sprockets in our exclusive **ULTRA-TUFF™** material to ensure superior performance
- ✓ **Rigorous Quality Assurance:** We implement comprehensive, multi-layered quality control processes to maintain exceptional product standards
- ✓ **Improved Food Safety:** While others may claim to improve food safety, customers who have converted to Safari Belting's **ULTRA-TUFF™** have reported reducing foreign material claims from plastic modular belting to ZERO over a 1-year period
- ✓ **Enhanced Profitability:** Case studies document that utilizing **ULTRA-TUFF™** results in a measurable increase in trim capture and significantly improved return on investment
- ✓ **Innovative Design:** Our patent-pending Heavy-Duty Edge technology seamlessly integrates with competitors' belts, offering versatility
- ✓ **Proudly Made in the USA:** Our **ULTRA-TUFF™** products are molded and assembled with precision and pride at Safari Belting's factory in the United States
- ✓ **Expert Support:** With over 60 dedicated sales professionals and partnerships with industrial distributors across North America, we provide more than industry expertise, we are experts in your plants
- ✓ **Long-Term Assurance:** We offer extended, multi-year warranties on select **ULTRA-TUFF™** applications, ensuring peace of mind
- ✓ **Dedicated Customer Service:** Our knowledgeable representatives are empowered to personally address your needs without layers of bureaucratic decision trees
- ✓ **No Extra Fees:** Safari Belting does not charge expedited or minimum order fees which can add more than 40% to the cost of the belt

**Safari Belting thrives on challenging industry norms and delivering customized solutions. Our commitment to research and development is central to our mission, particularly in advancing food safety performance for modular plastic belting.**

**Choose Safari Belting Systems for reliable, innovative solutions that enhance efficiency and adhere to the highest quality standards. As part of the Chiorino Group, we leverage global expertise to offer cutting-edge solutions for a wide range of industries.**
